

About ASTA Energy Solutions AG

ASTA Energy Solutions AG is an internationally operating industrial company headquartered in Oed, Austria, with a corporate history spanning more than 210 years. The ASTA Group employs approximately 1,400 people across six locations in Europe, Asia, and South America. ASTA develops and manufactures high-precision solutions for system-critical applications in high-performance energy technology. These solutions help increase efficiency, reduce energy losses, and ensure the reliable and safe use of electrical energy. ASTA's technologies are applied across key areas of the energy value chain, from power generation and transmission to next-generation mobility solutions.

In the 2025 fiscal year, the ASTA Group generated revenues of EUR 695 million. ASTA is a long-standing and trusted partner to leading global technology companies, including Siemens Energy, Hitachi Energy, Andritz, and GE Vernova.

Sustainability is a core element of ASTA's corporate strategy. Through integrated recycling processes and the development of circular material solutions, ASTA takes a pioneering role in building a resource-efficient, energy-optimized, and environmentally responsible industry, actively contributing to the global energy transition.
